Vaudeville and Motion Pictures.

The vandeville at the Auditorium, which opened the week Monday, furnished a list of top line attractions which filled the house well in the afternoon, and packed it to the doors in the evening. In this the feature of all was the Russian Hercules, the Great Maximus.

The musical side of the bill is attractively looked after by Robert McDonald, the Scotch comedian, and Davis and Davis, one of the best singins teams that has been heard at the Auditorium. McDonald has a stageful of instruments wrom which he extracts melody, including bagpipes, coach horn, harps and others, winning a big hand. He tells that one morning he was on a little Central Kansas branch line. It was very cold—one of the mornings when the mercury hung close to zero. The train started and the conductor was taking up the tickets in the lone passenger car. Directly he heard a knock at the back door. He paid no attention to it, and the knock was repeated, not noisily, but unmistakably. He looked up and through the glass door saw a young man about 19 years old, standing out in the vestibuie. The youngster knocked again.

"I guess I'll see," said the conductor, and going to the back end of the car he opened the door.

"Well," said the "con."
